(Continued from reverse side…)

Environment Complete™

This resource offers deep coverage in applicable areas of agriculture, energy, natural resources, marine & freshwater science, pollution & waste management, social impacts, urban planning and much more. *Environment Complete* contains more than 2,183,500 records from over 1,900 domestic and international titles dating back to the 1940s, as well as full text for more than 750 popular journals and over 130 monographs.

Waters & Oceans Worldwide

This resource is essential for those dealing with all aspects of water and water-related subjects. Containing more than 1,694,900 citations and abstracts dating back to the 1970s, this resource includes research ranging from coastal and offshore engineering to pollution and water treatment.

Arctic & Antarctic Regions (AAR)

This is the world's largest collection of international polar research literature, containing more than 1.5 million records from 1800 (or earlier) to the present. Comprehensive subject coverage makes AAR the best resource for research on cold regions — from geology to global warming, engineering to oceanography, and biology to ethnic diversity.

Inspec®

Inspec is the leading bibliographic database providing abstracts and indexing to the world's scientific and technical papers in physics, electrical engineering, electronics, control engineering, manufacturing, production, mechanical engineering and more. Containing nearly 10 million records, *Inspec* provides coverage from thousands of journals and conference proceedings, as well as numerous books, dissertations, patents and reports.

Business Source® Corporate

Designed to meet the diverse business information needs of today's companies, this database contains full text from nearly 3,000 magazines and journals, including general business periodicals, trade publications and top management journals. Additional sources include economic reports, substantial company profiles and industry reports.

Newspaper Source™ Plus

Providing full text for more than 730 national & international newspapers, this database also features more than 684,000 television & radio news transcripts, videos and podcasts.

EBSCOhost® Integration Toolkit (EIT)

The EBSCO*host* Integration Toolkit (EIT) integrates EBSCO content into organizational workflows. Users can access EBSCO R&D and business content from within their enterprise search applications, research portals, and departmental intranets. EIT solutions fit a range of integration needs, from monitoring to in-depth research. EIT offers direct linking to full-text content, RSS feeds, metadata for enterprise search applications, SharePoint web parts, sharable search indexes, a comprehensive web services API, and an integrated (federated) search capability. EIT is an easy and powerful way to deliver premium content to your employees.
