

# Sustainability

## Reference Center™

Available via EBSCOhost®

## A New Resource for Sustainability Professionals

Sustainability professionals face challenges that are greater today than ever. As this area evolves, more and more corporations are realizing that sustainability can be a vital component of corporate strategy. EBSCO Publishing's *Sustainability Reference Center* is an online resource designed to support the mission-critical needs of sustainability experts and information professionals.

The *Sustainability Reference Center* offers an abundance of full-text content from its complete coverage of several hundred leading industry journals, monographs, magazines, and trade publications, all with a strong focus on sustainability issues. This database also features full text for tens of thousands of additional sustainability-related articles, benchmarks, and best practices, selected from thousands of trade and industry titles.

(See reverse side for more information...)

## Extensive Coverage of Sustainability Literature:
